

Your eyes

are his eyes

Your Drink

Is Her Drink

Drinking alcohol during your pregnancy can change the way your baby looks and cause your baby to be born with:

- A small brain
- Brain damage
- Heart problems
- Kidney problems
- Mental retardation
- Behavior problems
- Learning problems

For more information, or to schedule a prenatal care visit, please contact:

Supported in part by project UIHMC07657 from the US Department of Health and Human Services, Health Resources and Services Administration, Maternal and Child Health Bureau (Title V, Social Security Act).
